

Social Media

Social Media Group Interface

Something that is kind of like a cross between a Facebook groups & events, Groupme and Whenisgood. The interface would look kind of like a Facebook group and users would use their Facebook accounts to login.

Sticky Slogan: Social media that makes you productive and coordination efficient

What college students use now for group work:

- Facebook
- Groupme
- Whenisgood
- Google Drive
- Asana example

Pitch Things:

- our idea
- emphasize concepts used from class
